6. If NO state concerns

Answered: 52 Skipped: 796

- Not if it costs more tax money
- there is no money for this project
- maintenance and safty , town maintenance can not take care of the roads they have now ; picking up trash , sweeping , prunning trees and shrubs ect.the police are also over worked here .
- I think we have a larger problem balancing our budget, then the need or expense of a bike path! We need more Police on the streets!
- there is no money for bike path
- safety
- I would like to know where exactly it would be.

- I would like to see a plan! Where is it posted on the website?
- vfRRPD aykaekuhbmyk, [url=http://ndzvpcxcswtr.com/]ndzvpcxcswtr[/url], [link=http://gmodfsnwyca.com/]gmodfsnwyca[/link], http://mrulplzcjryf.com/
- I think a bicycle/walking path is a good idea but it would add a financial burden to a town that can not endure more expense. It was said that the town would not have the burden of expense but that could never happen. Who is going to keep the paths clean and keep the riff-raff(the party types). This would mean more maintenance and police expense. Don't try to fool the taxpayer that this is not going to effect the town's financial distress. Consider a fee by registering your bicycle.
- money
- ABOSULUTELY NEED A BIKE PATH IN WAREHAM!! OUR FAMILIES NEED THIS! OUR COMMUNITY NEEDS THIS! THIS WILL HELP PREVENT MANY BICYCLE AND PEDISTRIAN ACCIDENTS.
- I would still have concern about safety of children walking through paths
- all town public lands should be open and accessable for all legal activities including dirtbikes and hunting
- cost
- the country is in an economic crisis and you are proposing bike paths. You are cutting library hours, teachers hours and you are thinking about this nonsense? NO. I DO NOT WANT A BIKE PATH.
- Town could use funds to make improvements such as sewer lines, etc.
- Would depend on location.
- Cost when our taxes are going up and services are going down. And don't say the this is state sponsered because wareham still has to come up with the majority of the cost.
- not with the proposed plan down county rd. Mattapoisett used the R.R.bed, Marion has a R.R. bed that can be used and more scenic than making County Rd a super wide race way. Traffic is terrible now, and with a proposed 40B on upper County, what will we have. Re pave County to maintain it's country scenic beauty and hook up to the old R.R bed.
- another waste of money

- I feel that the taxpayer is going to get slammed with the cost and this is unacceptable. It was initially said that the taxpayer would not get the burden but as town meeting proved we spent \$20,000 for a study. Consider the cost of maintaining and safety concerns (re policing)

- In this year of fiscal crisis, it is irresponsible to use public funds for such a frivolous cause.

- Concerned about who will pay for upkeep and maintenance and security. Town does not have the money.

- it would have to be very well lit and not in a remote area I walk the canal area and it is very public and busy so it feels safe West Wareham is wooded and remote, I am concerned about that.

- we sould have a bike path in wareham well. i am 11 years old and live in wareham.now if we get and put in some new things than people will come here.so then we will get money and we get get school supply's and help out the town.
- proposed path down county rd.not safe. traffic is horrible,4 rds. to cross & 36 driveways. Why not use R.R. bed as other towns? Ride thru the woods is more enjoyable.Fhvn. to Matt. has too many rds. & driveways but nice ride thru woods. C.C. canal, flat and scenic, much nicer. Please consider R.R. bed in my back yard.
- These initiatives will be only done in the newer developments. What about cranbery highway. It is ridiculous to igonore cramberry highway and throw the money that should go to schools into bike paths? ARE YOU KIDDING ME?
- Cost
- low budget

- Fiscally we can't afford one at this time. We can't properly plow snow which creates more of a hazardous condition than not having a bicycle/walk path.

- Yes, BUT the restoration of passenger/commuter rail service trumps the creation of a bike way along the railroad right-of-way if both can't coexist. A bike way should not be built at the expense of future rail sdrvice.

8. If NO Explain

Answered: 36 Skipped: 812

- I don't really bike or walk.
- more important things to do
- it would ,in my opinion be unsafe
- to far of a walk or bike ride
- maybe
- no money
- safety
- I would like it to connect to Myles Standish.
- Remington
- dKjXefNehTx
- If you are serious about making Wareham an attaction, bting back the Commuter rail service from Middleboro.
- Not necessary

- Location along railroad right of way is dangerous.
- same as above
- why
- LsJzYIAgxFVmsy
- to much cost involved in the prospect
