MINUTES OF MEETING OF THE BOARD OF SELECTMEN

Date of Meeting:

February 16, 2021

Date of Transcription:

March 30, 2021

Transcribed by:

Cassandra Slaney

1. CALL MEETING TO ORDER BY CHAIRMAN

This meeting was held remotely due to COVID-19.

2. ROLL CALL

Selectmen Present:

Peter W. Teitelbaum, Esq., Chairman

Judith Whiteside, Clerk

Alan H. Slavin

Patrick G. Tropeano James M. Munise

Also Present:

Derek Sullivan, Town Administrator

Richard Bowen, Town Counsel

3. PLEDGE OF ALLEGIANCE

4. ANNOUNCEMENTS

The Special Town Meeting originally scheduled for December 19, 2020 recessed to January, further continued to March 13 2021, has been recessed to April 10, 2021. The Town Meeting will consist of two Westfield articles and the East Wareham rezoning article. Selectman Teitelbaum read into record the Town Moderator's Declaration of Recess and Continuance. (See attached)

Walgreens in Fairhaven and the Marshfield Fairgrounds are now offering COVID-19 vaccines. AARP is currently offering help to find vaccine locations as well.

The Council on Aging is available to help seniors and people who may not have computer access to find vaccination sites and help make appointments. Call 508-291-3100 ext. 6530 Monday through Friday from 8 a.m. until noon.

Selectman Teitelbaum stated that after consulting with the Board, an agreement was made to send a letter to the state protesting the decision to stop vaccinations locally and to restore them back to the community hospitals.

5. <u>CITIZEN'S COMMENTS</u>

None.

SELECTMEN MEETING MINUTES-2/16/2021 (CONT'D)

6. **BOARD'S COMMENTS**

The Bike Path Committee has been reestablished and is currently looking for volunteers.

Selectman Munise suggested adding on a future agenda discussing a process or procedure to follow regarding negotiations for Host Community Agreements.

7. APPOINTMENTS/REAPPOINTMENTS/INTERVIEWS None.

8. LICENSES AND PERMITS

a. Application from Starbucks Corporation d/b/a Starbucks Coffee, 1 Seth F. Tobey Road, Wareham, MA. for a Common Victualler License.

MOTION: Selectman Whiteside moved to approve the application from Starbucks Corporation d/b/a Starbucks Coffee, 1 Seth F. Tobey Road, Wareham, MA. for a Common Victualler License. Selectman Tropeano seconded. Roll Call: Selectman Slavin-yes, Selectman Tropeano-yes, Selectman Munise-yes, Selectman Whiteside-yes, Selectman Teitelbaum-yes.

VOTE: 5-0-0 (Unanimous)

b. Application from 99 West, LLC d/b/a 99 Restaurant & Pub, 40 Rosebrook Place, Wareham for a Change of Manager.

MOTION: Selectman Whiteside moved to approve the application from 99 West, LLC d/b/a 99 Restaurant & Pub, 40 Rosebrook Place, Wareham for a Change of Manager. Selectman Tropeano seconded. Roll Call: Selectman Slavin-yes, Selectman Tropeano-yes, Selectman Munise-yes, Selectman Whiteside-yes, Selectman Teitelbaum-yes.

VOTE: 5-0-0 (Unanimous)

9. TOWN BUSINESS

a. COVID-19 update.

Mr. Sullivan that Wareham is now in the yellow risk category and there were 42 confirmed cases.

b. Trash policy update.

Mr. Sullivan presented a draft applications for seasonal residents to opt out of the trash services by other means and for senior citizens to pay a reduced rate. Both applications involve eligibility requirements. (See attached)

Discussion ensued regarding possible reduced rates for seasonal residents.

MOTION: Selectman Tropeano moved to approve both applications as presented. Selectman Slavin seconded. Roll Call: Selectman Slavin-yes, Selectman Tropeano-yes, Selectman Munise-yes, Selectman Whiteside-yes, Selectman Teitelbaum-yes.

VOTE: 5-0-0 (Unanimous)

MOTION: Selectman Tropeano moved to charge seasonal residents the standard rate of \$125.00 per year for the Transfer Station sticker. Selectman Whiteside

SELECTMEN MEETING MINUTES-2/16/2021 (CONT'D)

seconded. Roll Call: Selectman Slavin-yes, Selectman Tropeano-yes, Selectman Munise-yes, Selectman Whiteside-yes, Selectman Teitelbaum-yes.

VOTE:

5-0-0 (Unanimous)

Mr. Sullivan will provide a proposed curbside reduced rate for seasonal residents at the next meeting for discussion and vote.

c. Discussion and vote to permit signs marking Massachusetts Audubon Society conservation land, 226 Great Neck Road.

This item will be placed on the next agenda for discussion and vote due to questions on the sign bylaws.

d. Presentation of Decas School Redevelopment Study.

Present Before the Board: Grant King, Director of Comprehensive Planning and Housing

During Mr. King's presentation, he discussed the intent of the study, the benefits and costs as well as the action plan with a focus on zoning. (See attachment)

- e. Discussion and vote on 2021 Spring Town Meeting Warrant Articles. Discussions and votes will take place at the next meeting.
 - f. Any other Town business not reasonably anticipated 48 hours prior to the posting of this meeting.

10. TOWN ADMINISTRATOR'S REPORT

No report.

11. LIAISON REPORTS/INITIATIVE REPORTS

Nothing to report.

12. CONSENT AGENDA

- a. Authorization to sign bills and documents, etc.
- b. Approval of Executive Session meeting minutes: February 2, 2021; February 9, 2021

MOTION: Selectman Whiteside moved to approve and hold the Executive Session meeting minutes for February 2, 2021 and February 9, 2021. Selectman Tropeano seconded. Roll Call: Selectman Slavin-yes, Selectman Munise-yes, Selectman Tropeano-yes, Selectman Whiteside-yes, Selectman Teitelbaum-yes.

VOTE:

5-0-0 (Unanimous)

13. ADJOURNMENT

MOTION: Selectman Slavin moved to adjourn at 9:19 pm. Selectman Munise seconded. Roll Call: Selectman Slavin-yes, Selectman Munise-yes, Selectman Tropeano-yes, Selectman Whiteside-yes, Selectman Teitelbaum-yes.

VOTE:

5-0-0 (Unanimous)

SELECTMEN MEETING MINUTES-2/16/2021 (CONT'D)

14. SIGNING OF DOCUMENTS APPROVED BY THE BOARD

Respectfully submitted Cassandra Slaney Department Assistant

The foregoing minutes were submitted to the Board of Selectmen on:

Attest: And ambles clerk

Date Signed: 81000 Date sent to the Town Clerk: 8-10-04

Declaration and Continuance of the December 19. 2020 Town of Wareham Special Town Meeting

Pursuant to Massachusetts General Laws, Chapter 39, § 10A, I Claire L Smith, do hereby declare on this day of February 16, 2021 that the Town of Wareham Special Town Meeting scheduled for Saturday December 19, 2020 which was further recessed and continued until Saturday, March 13, 2021 at Wareham High School be further recessed and continued until Saturday April 10, 2021.

In consultation with the Board of Selectmen, Public Safety Officials, and the Board of Health, I determined that a public safety emergency prevented voters from attending the meeting on Saturday, December 19, 2020 and still will prevent voters from attending on March 13, 2021.

The nature of the emergency is the continuous threat of the Coronavirus ("COVID-19") and the notice of a new virulent strain. In making this Declaration, I note that on December 22. 2020 Governor Charles D. Baker declared further restrictions in the Commonwealth and prohibited gatherings of more than 25 people throughout Massachusetts. Although the Governor's orders explicitly exempt municipal legislative bodies (in other words, town meetings), the turnout for this town meeting will exceed 25 individuals and the exemption does not diminish the health risk to such a large gathering. The expectation of a large voter turnout due to the nature of the warrant will put voters at risk.

In addition to consulting with the Selectmen, Public Safety Officials, and Board of Health, I have reviewed guidance from the Massachusetts Department of Public Health and the U.S. Centers for Disease Control and Prevention. Given the rapid spread of the disease the present lack of full containment, and the risk to vulnerable populations inherent in public gatherings, I conclude that delaying the Special Town Meeting until it can be safely held, is in the best interest of the Town and its citizens. Under the statute, I do not have the authority to continue the Special Town Meeting for longer than 30 days but I do have the authority to issue further continuances.

M.G.L. Ch. 39, §10A mandates that the moderator "shall announce the declaration of recess and continuance as far in advance of the town meeting being continued as possible."

It is highly unlikely that the COVID-19 emergency will have abated by March 13, 2021 therefore I declare a Declaration of Continuance until April 10, 2021, at 12:00 PM (noon) when it can be held safely outdoors on the field of Wareham High School due to the expectation of a large number of voters anticipated to be in attendance given the nature of the warrant.

Claire L. Smith

WAREHAM MUNICIPAL TRASH SERVICE

Municipal Maintenance 95 Charge Pond Rd Wareham, MA 02571 Telephone (508) 295-5300

Application for Senior Abatement

Senior citizens age 65 or older who meet eligibility requirements may receive one of the two following abatements: (1) \$120 reducing the annual curbside fee to \$245 or (2) \$62.50 reducing the annual transfer station sticker to \$62.50

To be eligible for this abatement the applicant and spouse at the qualifying address must submit documentation of a fixed income that does not exceed \$33,320 for one person and \$38,080 for two people along with government issued identification proving age of 65 or older.

Please include proof of fixed income which will be any one of the following items below:

- 1. A copy of your most recent individual (for one) or joint (for two) tax return.
- 2. Massachusetts Schedule CB Circuit Breaker Tax Credit form.
- 3. If you qualify for Clause 41C Elderly Persons

アカクヨウニ あどうかんぶつことり

Economic Development Strategy (EDS) and working in partnership with SRPEDD, the Wareham Redevelopment Authority (WRA) explored several redevelopment scenarios at the John Decas School site. The school will be decommissioned in 2021, leaving a large parcel that is well positioned for economic development due to several characteristics and assets documented in this report.

The study's *Preferred Scenario* - an "Office-Using Lab/Flex Space" development that yields approximately 170,000 s.f. and 270 jobs - is based on various EDS take-aways and builds on aspects of Wareham's existing planning - keeping both economic and community development in mind.

While the *Preferred Scenario* represents an ideal outcome for the Decas School site, the study also explored other "build-outs" to establish a plausible range of different facility demands, site designs, and benefits/costs that will enable effective marketing to prospective developers and firms. Establishing this "range of expectations" will also help the WRA determine what public infrastructure investments, if any, and policy initiatives it should pursue to achieve its desired scenario(s).

MXMCCTIVE SUMMARY

Before the reader dives into the details of the report, please consider the following main "Take-Away" messages:

There are no significant site constraints.

- There are no significant site constraints (e.g., wetlands or flood plains).
- The existing school building has a moderate asbestos liability, which increases the estimated demolition costs to approximately \$1M; some asbestos remediation has already been completed.
- The site has sufficient sewer/water service and roadway capacity.
- The nearby Business Development Overlay District (BDOD) zoning and a Federal Opportunity Zone offer connections to larger policy goals both local and national.
- The 2019 EDS market data, prior town planning, nearby comparable development, and anecdotal evidence support the "Office-Using Lab/Flex Space" *Preferred Scenario*.
- Several other Scenarios all with connections to the local and regional market - also offer a range of desirable benefits.
- All of the Scenarios limit themselves, more or less, to the Decas School's existing development footprint;

this leaves surplus land on the site to remain recreation or for other complementary uses that the town is considering for the future. These include a public safety facility, a commuter rail station, or senior housing. In short, economic development and other activities can take place on the large site.

- A 2- to 3-year Action Plan included in the study leads to private redevelopment of the site by 2022 or 2023.
- The WRA should work with the town to rezone the site and all of Wareham Crossing to the North to BDOD to enable the envisioned uses. (This will also position Wareham Crossing for potential re-use and redevelopment should in-person, big box retail no longer be the site's "highest and best use.") The site is currently zoned Multi-Family Residential (MR-30).
- The WRA will need to work with the School Board and Board of Selectmen to take ownership of the site. It will also need to work to prepare the site for redevelopment by removing the asbestos and razing the existing building.

MX01NO OOZOTONO

The study began with a thorough analysis of the site and its context. This "existing conditions" work included a drone survey, site visits, research, and mapping.

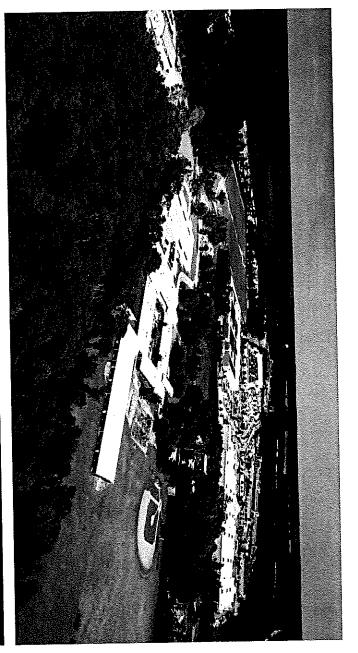

The reader can explore interactive drone data at: www.srpedd.org/Decas-School

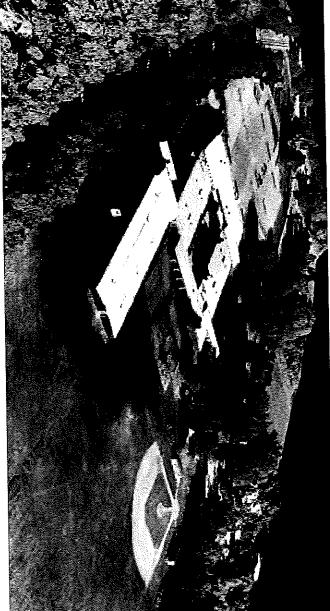

Additionally, the map series (on the following five pages) provides an overview of GIS data analyzed in early 2020; this map series reveals no site constraints and explores the following data themes:

- Site Characteristics
- Zoning
- Land Use
- Environmental Resources
- Hazards

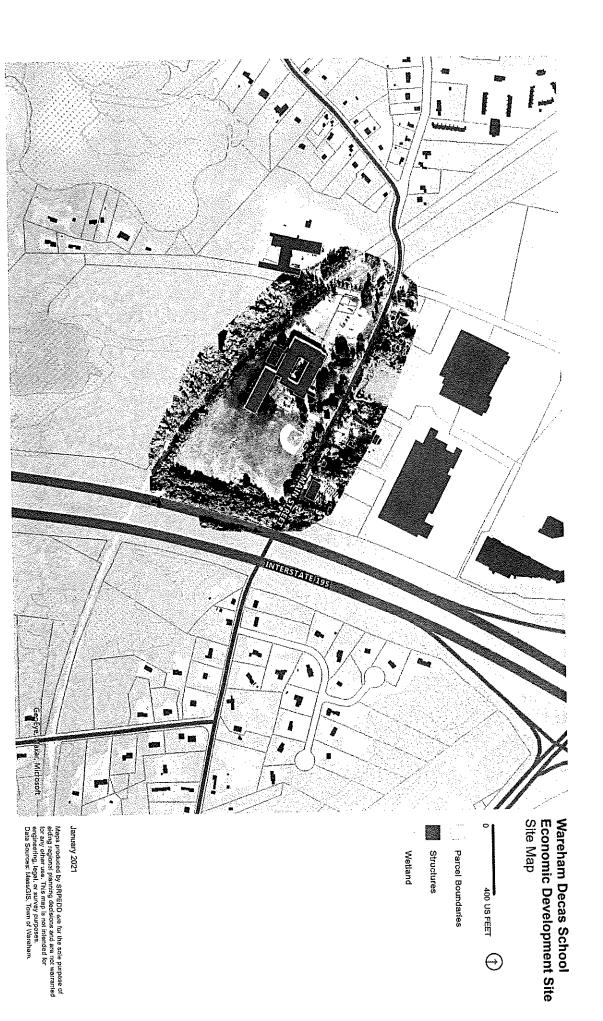

The project team conducted basic research to understand the site's history. That information appears as a timeline graphic on page 8.

The Existing Conditions analysis concludes that the site has no major constraints and is well positioned for redevelopment.

development scenarios. survey's 3D model; this information enabled accurate site assessment and served as context for rendering the Top: The Decas School (foreground) with Wareham Crossing, to the North. Bottom: A still image of the drone

north, Interstate 195 to the east, the State-owned rail road right of way to the south, and Station Street to the west. The Smithers/ southernmost edge of Wareham Crossing are visible to the north. Viscient facility (shaped like a capital H) is located directly to the west of the site, across Station Street. Large building footprints on the The Decas School and its associated parking occupy roughly one-half of its 15.5-acre site. The site is bound by Main Street to the

Development Overlay District (BDOD) cover the recent Rosebrook Way and South Coast Health Developments (north of Cranberry Immediately to the north, Wareham Crossing appears in the Industrial (I) zone. The nearby Commercial General zone and Business Highway). In general, these more intensive business uses characterize the study area and represent the site's immediate context.

ENVIRONMENTAL RESOURCES

Board. In other words, further research did not reveal article 97 or other restrictions on redevelopment potential. There are no wetlands this appears to be due only to the presence of existing recreation fields and the fact that the property is owned by the Wareham School According to MassGIS "Protected and Recreational Open Space" data, the Decas School site has "limited" protection status. However, on the site.

エアストホワの

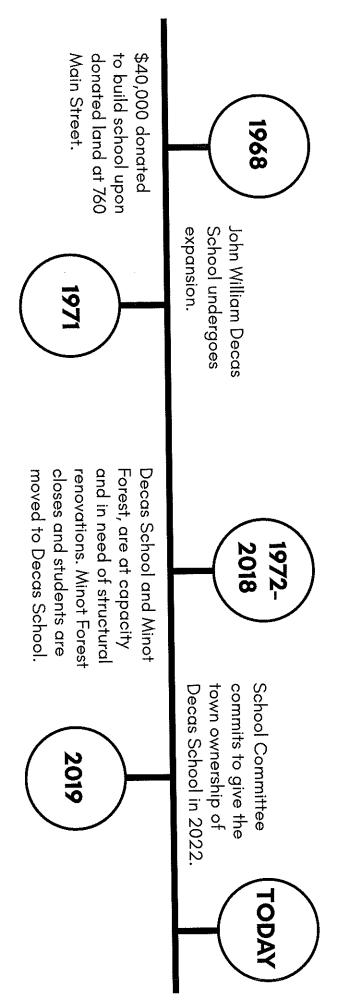

plains do not affect the property. While the beautiful tidal Weweantic River makes a close approach to the site, the associated FEMA AE/1% ("one-hundred year") flood

some asbestos remediation has already been completed. The existing school building has a moderate asbestos liability, which increases the estimated demolition costs to approximately \$1M;

J

SITE HISTORY & BACKGROUND

TIMELINE

SITE HISTORY (AND EXISTING CONDITIONS SUMMARY)

The project team also researched and summarized the Decas School's past to provide context for all discussions of and plans for its

The Existing Conditions analysis concludes that the site has no major constraints and is well positioned for redevelopment.

NARKET SUMMARY

The town's 2019 *Economic Development*Strategy (EDS) served as the principal source of local market information that informed the report. In addition to the data highlighted in the EDS, the project team consulted prior local, regional, and national planning to establish a clear market for redevelopment and to identify and describe the need for that redevelopment. The main findings of this "Needs Assessment" are summarized here.

- Wareham has experienced recent population growth (approximately 10% from 2000 to 2015); those growth rates are higher than rates in the Commonwealth, as a whole, and in the SRPEDD region over the same period. Growth is projected to continue.
- Wareham has likewise experienced recent (pre-pandemic) job growth that is projected to continue to translate into demand for commercial, office, and industrial space,² This report

- explores demand for office and manufacturing "flex space" in more detail on page 10.
- The Wareham EDS establishes demand for other uses explored by this report's various build-out scenarios; these include health care and office uses,³
- Existing town planning documents, including the 2016 *Town of Wareham Route 28 Economic Development Study* and the 2017 *Master Plan* target Route 28 (west of I-195), Tobey Road, and the Decas School's immediate context for economic development.⁴ Further, in addition to economic development, this site has been considered for complementary uses, such as a commuter rail station.
- The nearby Business Development Overlay District (BDOD) has enabled significant recent growth in Wareham, including Rosebrook Way's mixeduse development⁶ and a 70,000 s.f.

Workforce Development; Wareham's Economic Development Strategy (EDS), SRPEDD's Data Center.

3 Wareham Economic Development Strategy (EDS) page 26/Fig. 12, page 36/Table 7, and page 51.

1 U.S Census Bureau; UMass Donahue Growth

Projections; SRPEDD's 2020 Regional Transportation Plan: https://srpedd.org/wp-content/uploads/2019/10/2020-

- 4 Please note that both plans pre-date the School Committee's decision to decommission the Decas School otherwise this site would likely have been identified for reuse and redevelopment by those plans, as well.
- 5 Rosebrook Way includes retail, office, hotel, apartments,

2 Massachusetts Executive Office of Labor and

RTP-Appendix-B-Trends-Projections-and-Patterns-071619

SouthCoast Health facility (constructed in 2010).

- The adjacent Federal Opportunity Zone⁶ offers connections to larger national policy goals and seeks improve economic outcomes for lowincome residents in that Census Tract. Wareham's median household income of approximately \$65,0007 is well below its neighbors, the region, and MA, as a whole.
- Anecdotally, the neighboring Smithers/
 Viscient facility literally across
 Station Street from the Decas School
 provides evidence of market activity
 and demand for "Office-Using Lab/
 Flex Space" the *Preferred Scenario*.
 Interviews with local officials indicate
 that similar firms have made informal
 inquiries about the future of the Decas
 School site.

assisted living, and medical uses.

- 6 The Opportunity Zone (OZ) Program was created by the U.S. Tax Cut and Jobs Act of 2017. Its goal is to incentive investment in low income communities throughout the country. State Governors nominated eligible census tracts for participation in the federal program. The site is approximately one-quarter mile outside of an OZ covering downtown Wareham.
- 7 According to Census data the most up to date figure for median income in Wareham is \$65,825 with a 10.4% poverty rate. MA stands at 85,843 with a 9.4% poverty rate.

WAREHAM ECONOMIC DEVELOPMENT STRATEGY

Industry Trends - Demand for "Office-Using" and Manufacturing Space

Projected Space Demand Based on Historical Employment Tr	n Historical Employmen	t Trends
	Projected New Jobs	Projected Space Demand (SF)

theretore more feasible to develop" traditional industrial space typically cannot, flex space commands a higher rent and is for expansion in Wareham. Because it can be adapted to different uses in ways that "Flex space is considered by local brokers and developers to represent an opportunity

Page 36/Table 7 and page 50 and of the 2019 Wareham Economic Development Strategy (EDS) (summarized in the above graphic) help make the case for "Office-Using Lab/Flex Space" - the Preferred Scenario identified by this Needs Assessment.

Working in close consultation with the WRA,¹ the project team used guidance from the Existing Conditions Analysis and Needs Assessment to identify and explore examples of regional developments that were plausible for the Decas site's future re-use. Basing future "Scenarios" on these regional examples allows the work to remain grounded in a range of real world expectations (e.g. availability of relevant expertise in the regional labor pool, expected job densities per use type, realistic values per s.f. of built space, and anticipated infrastructure needs).

Once the team identified these examples, it sampled several key characteristics, resulting in the following measurements:

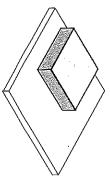

- Year Built
- Building Area
- Lot Size
- Number of Floors

- Floor-Area Ratio (FAR)²
- Building Value
- Value per s.f.
- Jobs
- Jobs per s.f.

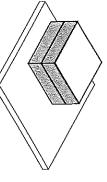

Armed with these numbers, the team could then conduct the following thought experiment: "If you were to redevelop the Decas School site like this, what would you get?" In other words, by applying an example development's measured FAR to the Decas parcel, the team could estimate a potential building size if the property were built at the same intensity; and from that building size, the team could estimate various "indicators" (benefits and costs).

The following pages of this report present these Scenarios, created using City Engine and SketchUp and visualized in ArcGIS. Detailed estimates of their indicators appear in the table and assumptions on pages 17 through 19. A summary of the WRA's *Preferred Scenario* - High Intensity "Office-Using Lab/Flex Space" - appears on pages 14, with a more detailed visualization on page 20.

1 Staff held several working sessions with and made two formal presentations to the WRA during the course of this

SCHNARO RDICATORS (BENEFITS AND COSTS)

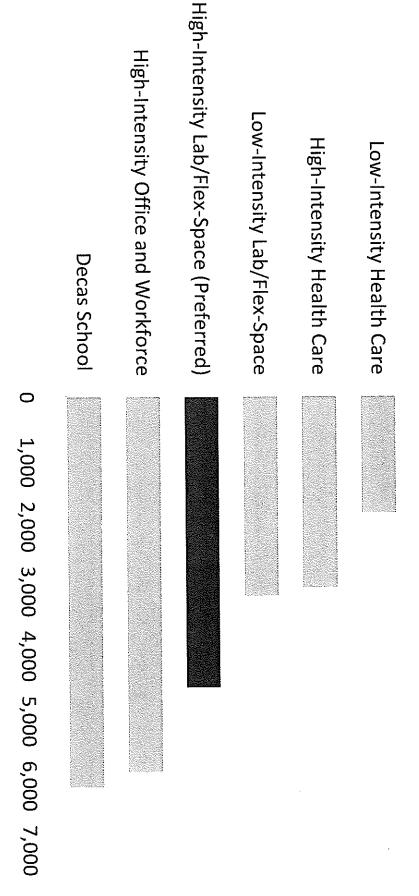

standard assumptions. They allow the project team to provide a realistic estimate of all the benefits and costs that each Scenario might generate. Key impacts on area infrastructure - water/wastewater and roadways - appear in illustrations on the following pages, 18 and The above table shows all the math behind the development Scenarios. The calculations rely on observed measurements and industry 19. No negative impacts or major infrastructure investments are anticipated for the Preferred Scenario.

The table illustrated above is available from the project web page - www.srpedd.org/Decas-School

WODELED DAILY VEHICULAR TRIPS

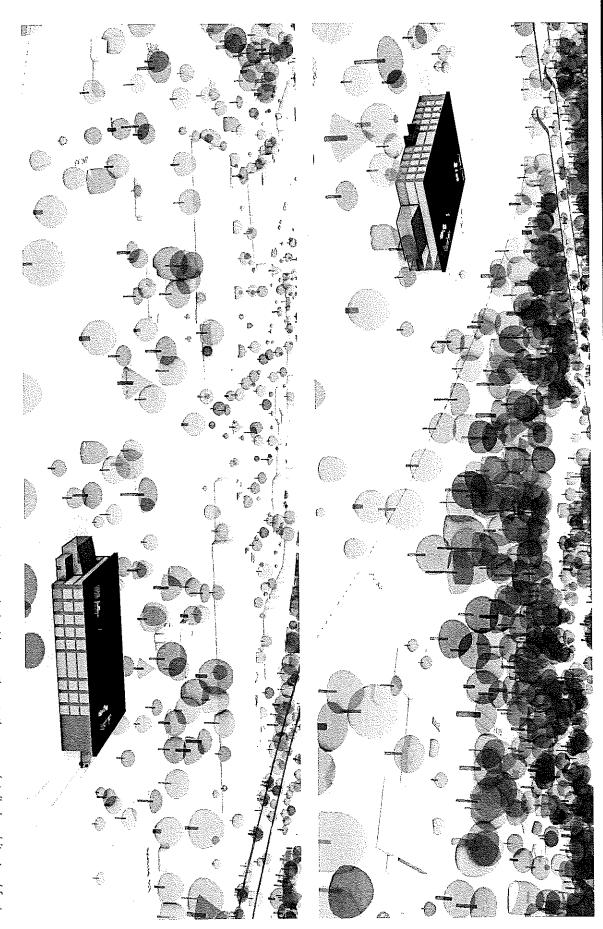

existing, already fairly intensive (in terms of trip generation) elementary school use. Analysis indicates that the Preferred Scenario (highlighted above in dark green) will generate slightly more trips on local roads than the

MODELED WATER/WASTEWATER USE (GALLONS PER DAY)

indicates that the Preferred Scenario (pictured above in dark green) will result in less demand on local services. Similarly, since the Decas School is an already fairly high-intensity use (in terms of water and sewer "gallons per day"), analysis

POTOL TIN

Finally, the project team assembled a list of actions necessary to make the *Preferred Scenario* a reality. These are broadly outlined below, with detailed steps and timelines illustrated in the Action Plan on page 22.

An interactive version of the detailed Action Plan is available on the project web page - www.srpedd.org/Decas-School.

- Overlay District Current zoning on the Decas School site will need to be changed to enable the densities and uses envisioned by this study. The town's existing BDOD meets these needs. (Zoning should also cover all of "Wareham Crossing" to the north of the site.)
- Redevelopment Authority (WRA) ownership The Decas School is currently owned by the School Board. In 2019, the School Committee formalized the process by which ownership of the school would be transferred to the town. Based on the study's recommendations, the town should transfer ownership to the WRA as soon as possible.
- Develop Incentive Program To bring the Preferred Alternative to life, the town and its partners should pursue specific incentive strategies to incentivize private investments in town.

က

Prepare the site for redevelopment - The study explores a variety of scenarios, but each envisions a new development. As such, to move forward with any of the recommendations, the town should take steps to prepare the site for development, including razing the existing structure.

The Decas School site represents an opportunity to foster economic development in the town of Wareham and the adjacent Opportunity Zone, achieving local and national goals in the process. The site's characteristics, coupled with the market conditions and forecasted demand, offer promising opportunities for new development across a wide range of scenarios. Though each scenario offers job growth and increased tax revenue, high-intensity lab/flex space demands a higher value for its adaptability, offering the most competitive benefits for both prospective developers and the town of Wareham.

To achieve the recommendations and any of the scenarios, the study lays out an action plan. This path to private development is aided by the lack of site or capacity constraints, in addition to nearby existing zoning that would be appropriately applied to this site.
