

## **SECTION 11: Portable Toilets**

1. The Person in Charge (PIC) does not have to provide separate toilet facilities for each sex when they will not be occupied by more than one employee at a time, can be locked from the inside, and contain at least one toilet. The PIC shall establish and implement a schedule to ensure that each sewer and portable toilet is maintained in a clean, sanitary and serviceable condition.

<u># of People of Each Sex</u>	<u>Minimum # of Toilet Per Sex</u>
1 – 15	1
16 – 35	2
36 – 55	3
56 – 80	4
81 – 110	5
111 – 150	6
Over 150	1 add'l toilet for ea. add'l 40 people

2. The PIC shall provide portable toilets only when the PIC demonstrates that it is not feasible to provide sewer and toilets, or when there is a temporary increase in the number of employees for a short duration of time.
3. The PIC shall ensure that each portable toilet is vented and equipped, as necessary, with lighting.
4. The requirement to provide toilets does not apply to normally unattended worksites and mobile work crews, provided that the employers ensures that employees have immediately available transportation to readily accessible sanitation facilities that are maintained in a clean, sanitary, and serviceable condition and meet the other requirements of this action.
5. The PIC shall provide handwashing facilities at or adjacent to each toilet facility.
6. The PIC shall ensure that each handwashing facility:
  - A. Is equipped with either hot and cold or lukewarm running water and soap, or with waterless skin-cleansing agents that are capable of disinfecting the skin or neutralizing the contaminants to which the employee may be exposed.
  - B. If the facility uses soap and water, it is supplied with clean, single-use hand towels stored in a sanitary container and a sanitary means for disposing of them, clean individual sections of continuous cloth toweling or a hand-drying air blower.
