JOB POSTING

OPERATOR/MAINTENANCE TECHNICIANS WATER POLLUTION CONTROL FACILITY PART-TIME (19 HOURS)

The Town of Wareham's Human Resources Department is accepting applications on behalf of the Water Pollution Control Facility (WPCF) which is a Massachusetts Grade 6, 1.5 MGD BNR wastewater treatment plant, for two (2) part-time Grade 5 licensed maintenance operators. Salary is commensurate with experience.

Requirements: High School Graduate; minimum three (3) years of experience in the operation and maintenance of a wastewater treatment facility; or any equivalent combination of education and experience

Licenses: must possess Massachusetts Wastewater Treatment Plant Operator's License Grade 5 or higher (will consider hiring Grade 4 operators with the ability to obtain a Grade 5 within 6 months of start date) and must possess a CDL B (or the ability to obtain one within 1 year of start date).

Responsibilities: include but are not limited to: knowledge of operations and maintenance of wastewater treatment facilities, basic biological processes and chemical reactions related to waste water treatment. The ability to perform the daily operation, maintenance and repair of the WPCF pumping stations and collection system, including daily monitoring and inspection of all plant facilities, including pumps, tanks structures and adjoining areas. Must collect samples of wastewater, sludge and chemicals and be able to maintain various related records and reports. Subject to CORI/SORI, pre-employment physical and drug test.

Submit letter of Interest and Resume or Employment Application to:
