SEWER BUSINESS

1. Discussion of Water Usage

The Board met with the Wareham Water Commissioners to discuss possibly having Sewer Bills based off water usage instead of using the current EDU System. Chairman Pigeon commented before the Selectman acting as Sewer Commissioners created the Commission in 2015, they voted to accept going to water usage for Sewer Bills. Mr. Pigeon continued and said the Sewer Commissioners are asking for the cooperation of the Water Commissioners in the research for possibly switching to water usage based sewer bills. Andy Cunningham, Operations Supervision and Superintendent of the Water Department, stated he couldn't say what the capabilities of the data company (Northern Data) can provide or format, as well as the effort it would/may take to do such. Commissioner Slavin asked if Northern Data does billing for other towns, but the answer is unknown.
