

**NOTICE TO RESIDENTS**

**HIGHLAND AVENUE SIDEWALK PROJECT**

The Town of Wareham would like to inform residents that field survey work for the sidewalk improvements on Highland Avenue will take place on or around the week of June 26, 2023.

The work will entail a survey crew from Weston & Sampson Engineers, Inc. performing a topographic and planimetric survey. During the performance of this work the crew may need to briefly access private property.

It is anticipated that the work will be completed in one day.

If you have any questions please feel free to talk to Bill Storti, Project Manager, who will be on-site as part of the survey crew. He can also be reached at (860) 806-5299.
