Telephone (508) 295-2122 • Fax (508) 295-5930**

RICHARD SNIGER

To: Town of Wareham
From: Onset Fire Dept.
Date: March 19, 2020
Subj.: Covid-19 SOP

Due to the current events the Onset Fire Department has made changes to their operating procedures. To avoid any possible health risks to the members of the Onset Fire Dept. the building will now be closed to the general public for the unforeseeable future.

Most inspection services have been stopped. 26F inspections are continuing, however there are changes to how they will be done. If you are selling your house please contact the station to make arrangements. Additionally, other inspections will be assessed individually. All commercial inspections are postponed. We do ask that those requesting inspections attempt to push off the requested inspection as far as possible.

All permits are still being issued. Most permits can be handled via phone or E-mail. Burn permits may be handled at the door (be advised the party requesting the permit will not be allowed into the building). I recommend calling first to prevent the applicant from standing at the door for an extended period of time. Arrangements will be made for the issuance of the permit.

Plan reviews, for construction, are still being done. All plans are to be submitted through the towns viewpoint. If additional information is required for the review, the applicant will be contacted to provide the information.

Please bear with us at this time. These steps must be taken so that we may continue to serve the community with our core objective.

In the interest of public safety,

Richard Sniger FPO
Onset Fire Dept.
508-295-2122
