## Wareham Health Department COVID-19 Public Health Status Update

**10/29/2020**

The State Department of Public Health has notified the Town of Wareham that our average daily incident rate has exceeded 8 COVID-19 cases per 100,000 and we will be moving into the red designation. Updates to our opening status and allowable activities will be posted as soon as we are notified. In light of the change in status we would like to remind everyone to stay safe for the Halloween weekend and we urge you to take extra precautions.
