

Town Trash Bag Update

December 29, 2020

For Immediate Release

The Town is implementing a one week delay to the requirement of using town trash bags at the transfer station. This means the trash bags will be required starting January 12th instead of January 5th.

This delay will help give residents more time to purchase the town trash bags. The bag vendor has informed us that one large grocery store and smaller location will have them available for sale this weekend. The store names will be released when the bags are available for sale.

There is no change to the RT28 transfer station reopening date. It will reopen on January 5th as planned.
