

Hello Neal,

Thank you for the confirmation. As of now, we are scheduled to complete the test pits/perc tests on 12/8 and 12/9. Depending on how soil conditions/access, we may also need to add 12/10.

We haven't set the exact days with Kyle Hoffman, but we are tentatively planning to complete the borings/wells the following week (12/13-12/17).

Please feel free to give me a call if you have any questions.

Thanks,

Asa Smith
