Project #36-21 Modifications to Special Permit Site Plan Review - Bay Pointe Club LLC Phase IV.pdf.pdf;

Planning Board,

I was made aware of this issue by one of my neighbors, Steve Costa. I am a homeowner in the Windward Pines development. Apparently, the original approval for the Windward Pines development stated: "The Bay Pointe Club, LLC shall provide at least one sidewalk which conforms to the Rules and regulations of the Planning Board on each street and the sidewalk on Bay Pointe Drive shall connect to the public sidewalk on Onset Avenue."

My wife and I frequently walk down Bay Point Drive out to Onset Ave. and then down to the Village. I feel that a sidewalk connecting the section of Bay Point where the homes are to Onset Ave would provide a much safer route as today we have to walk on the street. I fully support Steve Costa in the attached letter.

Please include my email as part of the public record

Thank you for your consideration,
Tony Secinaro
