Dear Sirs, We have resided at 41 Bay Pointe Dr.(phase 1) since June of 2019 and have read the letter from John McGonnell concerning traffic and safety issues that was received by the Wareham Planning Board office on 3/9/22. Mr. McGonnell has expressed issue that affect all of us living in this development and I would like to address the planned closure of Cahoon Rd.

In the past few weeks I have spoken to both Onset Fire Chief Osswald and Wareham Police Chief Correia regarding this closure. Both of them stated they do not support any closure to Cahoon Rd. Both stated that their response time and concern for public safety would be delayed, even with a proposed emergency access gate. Their concerns should take priority over any other reasons for requesting such a closure and I believe the Planning Board should take their concerns very seriously. I ask that this response be made part of the record in File#36-21.

Thank you,

Jerry and Diane Galizio
41 Bay Pointe Dr.
