<u>26 Gauge PBR Panels</u> – Rhino Standard PBR for roof and wall panels feature extra overlap for increased strength and water resistance.

<u>25 Year Warranty</u> – on all silicon polyester roof and wall panels from chalking or fading.

<u>Base Trim</u> – A colored steel edge that the wall panel rests on resulting in two major benefits: eliminates the need for concrete sheet notch and prevents panels from resting on concrete which may later cause rusting.

<u>Full Cover Trim</u> – added to all framed openings to enhance looks and resulting in more finished look.

<u>Weather Proofing</u> – At base, eave and rake. Another standard feature that includes closures strips, mastic, and flashing to ensure a weather tight building.

Price includes - 3 sets of engineer stamped drawings and anchor bolt plans.

Freight:		Included
Sales Tax (TBD):	То В	Be Determined
Total Building Price:	\$	67,847.00
