

Lillian Gregerman Bandshell RFQ

Addendum 1

Page 6, paragraph 2 under

PROJECT DESCRIPTION, SCOPE OF WORK AND SUBMITTALS INTRODUCTION

The designer will provide an existing conditions assessment, upgrades plan alternatives, bid documentation for the chosen alternative, construction documentation, and bidding assistance/construction oversight. We expect that construction will include masonry, structural, electrical, landscape work, and associated work. This project should address all parts of the Lillian Gregerman Bandshell and surrounding grounds. It should include all reimbursable work needed such as surveys, testing, etc.

Shall be replaced with the following language.

The designer will provide an existing conditions assessment if using the existing structure/foundation. We expect this design will include masonry, structural, plumbing, electrical, landscape work, ADA accessibility access throughout park and Bandshell and associated work. This project should address all parts of the Lillian Gregerman Bandshell and surrounding grounds. It should include all reimbursable work needed such as surveys, testing, etc.

To further clarify deliverables should be:

1. Design plan with ADA accessibility to grounds and Bandshell,
2. Cost estimate of constructing said design plan,
3. Cost of construction documents and bidding assistance,
4. This designed plan should be at 100% and be ready to put into a construction document.
