

**NARROWS PUMP STATION FORCE MAIN REHABILITATION
WAREHAM, MASSACHUSETTS**

QUESTIONS FROM POTENTIAL BIDDERS WITH ANSWERS

1. **Q: Due to the volume of questions and unknowns on the project, can you extend (1) the bid opening date, and (2) the date allowed to send questions for this project?**

A: Yes

2. **Q: Regarding the temporary bypass for the sewer services lines that connect to the existing force main, is it permissible to connect the low pressure services to the bypass line to allow continuous operation of the sewer bypass services.**

A: Yes

3. **Q: Regarding the temporary bypass pumping system, is it acceptable to connect the bypass piping at the existing station to allow for the station to provide the required pumping? This would save the town the set-up, rental, and maintenance of a temporary bypass pumping system.**

A: Yes

4. **Q: Regarding the design flow for the proposed temporary bypass system and piping, please confirm the required design flows, and provide the average daily flow and max daily flow anticipated for the temporary pipeline.**

A: Below are the max day and average day from the daily runtime summaries for the Narrows Pump Station and the Indian Neck Pump Station. The Indian Neck Pump Station ties into the force main at, approximately, station 26+60.

For calendar year 2022, the daily flow for the Narrows Pump Station

	GPD	GPM
max day	751,619.00	1,564.15
average day	501,731.17	1,502.43

For calendar year 2022, the daily flow for the Indian Neck Pump Station

	GPD	GPM
max day	45,430.00	590.00
average day	26,317.23	590.00

See attached calendar year 2022 Narrows Pump Station and Indian Neck Pump Station daily pumping data.

The total flow for the temporary bypass pipeline is not known. No data is available for the other sewer connections to the force main.

5. **Q: Contract documents specify the use of Hymax couplings, but also require Buy America / AIS. Hymax coupling are not AIS or Buy America compliant.**

A: Acknowledged

**NARROWS PUMP STATION FORCE MAIN REHABILITATION
WAREHAM, MASSACHUSETTS**

6. Q: Please provide a list of the required permits for the project.

A: MassDOT Access Permit, Wareham Road Opening Permit, Wareham Building Permit

7. Q: Does the project require an action with the Conservation Commission? Has the Town submitted a "Request for Determination of Applicability" to confirm that the project is not within their jurisdiction?

A: The Town has submitted a Conservation Department Administrative Approval Form. The project has been determined to be exempt.

8. Q: Has the Town submitted an access permit with MassDOT? Permit applications are typically submitted by the Town and their consultant prior to the bid to allow the contractors to account for the permit conditions in their bid.

A: The Town has submitted an access permit with MassDOT.

9. Q: Have the Town obtained all required easements?

A: The Town is working towards obtaining the required easements from affected sewer customers.

10. Q: Please confirm that it is permissible to complete this project during the summer.

A: Yes

11. Q: Does the railroad require any permits? Are there any special conditions for work near the railroad?

A: No known permits are required. No special conditions have been communicated.

12. Q: Note 1 on Sheet G1 states the Contractor is responsible for obtaining all permits required to perform the work.

a. Can you please provide a list of permits we will be required for the basis of bid?

A: See answer to Question #6.

13. Q: Mass DOT permit is customarily secured by the Owner of the Project, will the Owner be involved with securing the permit for this project?

A: Owner has applied for MassDOT permit.

14. Q: An Order of Conditions is customarily secured by the property owner, will the contractor be required to apply for and secure an order of conditions?

A: No. See answer to Question #7.

15. Q: Note 2 indicates an area near the WPCF and the Wareham River has been designated an "Estimated Habitat of Rare Wildlife" and requires the Contractor contact NHSEP prior to construction and ask if regulatory requirements apply to the proposed work. Could you clarify the location of this habitat on the Contract Documents prior to bid?

A: Location is as described in General Notes Note 2 on Sheet G1.

**NARROWS PUMP STATION FORCE MAIN REHABILITATION
WAREHAM, MASSACHUSETTS**

16. Q: Note 14 on Sheet G1 states that all field connections will be identified through CCTV inspections. Could you please provide a list of all known connections to the Force Main for us to use as the basis of bid?

A: All known connections are shown on the drawings. Additional information on these connections is not available in record drawings. Connections are to be verified during CCTV inspection prior to lining.

17. Q: Could you share the size of pipeline connection and what the estimated flow rate of each cross connection into the force main?

A: Information on these connections is not available in record drawings. Connections are to be verified during CCTV inspection prior to lining.

18. Q: Section 01010 paragraph 2.2 numbers 1 & 2 refer to the bypass of flows during construction.

a. Section 02330 paragraph 2.2 number 8 says the bypass piping systems must be sized based upon flows plus a factor of 5 percent and provides rate of 7,240 GPM for the Narrows Pump Station, doing the math brings us to roughly an 11 MGD flow rate for us to size our bypass piping & pumps. Can you please confirm?

b. Can you please provide average dry weather flow rates and wet weather flow rates that are currently running through the Narrows Pump Station Force Main?

A: See answer to Question #4.

19. Q: It was discussed at the pre-bid conference that the Contractor will not be allowed to utilize the Narrows PS equipment & wet well during the work and we must provide our own portable pumps, we could not find any reference to this within the project documents, could you please confirm?

A: The Contractor may use Narrows Pump Station equipment and well during the project.

20. Q: It was discussed at the pre-bid conference that the force main running parallel to the Narrows Pump Station Force Main cannot be used for flow diversion, we could not find any reference to this requirement within the project documents, can you please confirm?

A: The force main running parallel to the Narrows Pump Station Force Main may not be used for flow diversion.

21. Q: Can you please verify if "Buy-American" standards apply to all materials on this project?

A: "Buy-American" standard does not apply to the materials on this project. Hymax couplings may be used.

22. Q: Can you please describe if any special permits, insurance or flagging services will be required by the Railroad Operator/Owner for us to work on the Force Main below the ROW?

A: The Railroad Operator/Owner has not indicated that any special permits or insurance will be required. Flagging services will be required.

**NARROWS PUMP STATION FORCE MAIN REHABILITATION
WAREHAM, MASSACHUSETTS**

23. Q: What is the anticipated NTP date for the project?

A: The anticipated NTP date is early February 2024.

24. Q: Will the work on Sandwich Road have access restrictions during the summer months?

A: No access restrictions are known at this time.

25. Q: Could you please postpone the bid opening date two weeks to allow us time to review & assess answers to these questions?

A: Yes

26. Q: Is the restoration for buried bypass paid under the asphalt items?

A: Yes

27. Q: Is there any charge by the town for road opening permit costs?

A: The Town will waive road opening permit costs

28. Q: Is it possible to keep the Pump Station on Merchants Way active to eliminate the need for the contractor to supply Pumps and Pump watchmen?

A: Contractor may use pumps and equipment at Narrows Pump Station. Contractor may need pump watchmen for service connections downstream of Narrows Pump Station.

29. Q: How long can the Pump Station on Merchants Way be shut down for?

A: The Narrows Pump Station may be shut down for 1 hour.

30. What is the flow from the Indian Neck Pump station which ties in at station 26+60 (approximately)?

A: See answer to Question #4.

31. Q: Can the Indian Neck Pump station be shut down and for how long? This flow could back up towards the Pump Station at Merchants way if the pump station is shut down, so we would have to handle this flow also

A: The Indian Neck Pump Station may be shut down for 1 hour.

32. Q: Please confirm if materials are Buy American Only (including Hymax Couplings)

A: See answer to Question #21.

33. Q: Section 01010-2, 24.A states work hours are 7-3, Page 13 of 13 25.06 states hours are 7-4. Please confirm

A: The work hours are 7 am to 3 pm.

**NARROWS PUMP STATION FORCE MAIN REHABILITATION
WAREHAM, MASSACHUSETTS**

34. Q: What are the hours on Sandwich Road?

A: The work hours are anticipated to be 7 am to 3 pm.

35. Q: Please confirm we can use the owners property as a staging area for equipment and materials

A: Property at the WPCF at 6 Tony's Lane may be used as staging for equipment and materials.

36. Q: If water is used from Hydrants, will there be a charge for this? The water would be used to assist with cleaning and testing

A: The Wareham Fire District Water Department does not charge for water used for a town project.

37. Q: Is compaction testing of backfill required?

A: No

38. Q: Please clarify section 01080 regarding the requirement for a variable Portable message sign. It States required as ordered by the engineer. Will it be required and for how long?

A: A variable portable message sign may be required. The duration has not been determined.

39. Q: Please advise if Railroad Insurance will be required, if so, will you establish a pay item for it?

A: No known requirement for Railroad Insurance.

40. Q: Section 01010-2, 2.2, B.2, states truck all sewer flow from customers whose services are temporarily disconnected.- the disconnection will take approx. 4-6 days at each location, this would require a truck at he location 24/7, possible more for large services. To accommodate this we would need the individual flow rates for the services including the other force mains that tie into this line. Section 01025-12 1.32 B (temporary Bypass) states maintaining sewer service for customers. So should Section 01010-2, 2.2, B.2, be deleted?

A: The contractor is responsible for maintaining sewer flow from all customers. This may be done by trucking and bypass.

41. Q: Section 01010-2, 2.4, C states no excavation of paved roads after 11/15. When will the ban be lifted?

A: Typically, the ban on excavation of paved roads is lifted in March or April; however, this decision is weather dependent.

**NARROWS PUMP STATION FORCE MAIN REHABILITATION
WAREHAM, MASSACHUSETTS**

42. Q: Please confirm that the Head Wall exterior piping is to be as specified in section 15060-2, Class 53 with a red oxide primer exterior coating and the interior is only Cement Lined.

A: Confirmed.

43. Q: Question regarding the work hours: If all excavation work is 7 to 4 (approx.), can the cleaning/tv and lining work be done 24/7 to try and reduce the trucking of sewage time?

A: Yes, the cleaning and lining work may be done 24/7. The Contractor is responsible for any overtime costs associated with the work being performed outside the regular work hours.

44. Q: Where the side connections are abandoned, ie 17 Narrows road, do we simply line through the TEE? Or is excavation required to either cap the sideline, or remove the tee? Same at the connection at shipyard pump station.

A: Per PrimusLine, the side connections that are to be abandoned may be lined through as long as there are not any restrictions in the ID. The Owner requires the abandoned connections be capped.

45. Q: We have reached out to Primus to get Pricing for the project and they have revised their design for the project which effects the construction Phasing, number of pits and costing. When we sent them the specifications they stated it was revised by them. We are requesting that you and Primus resolve the discrepancies prior to the bid. Otherwise the Low bidder may have a change order request to resolve the Differences.

A: Acknowledged
