FORM C/DEFINITIVE PLAN CHECKLIST

The Definitive Plan shall be prepared by a registered engineer or land surveyor and shall be clearly and legibly drawn in black ink upon mylar suitable for registering at the Plymouth County Registry of Deeds (24" x 36"). The plan shall be at a scale of one inch equals 40 feet (1" = 40') or such other scale that the Board may accept, to show details in a clear and adequate fashion. In addition, 10 copies of reduced plans on ledger-size paper (11" x 17") shall accompany the Definitive Plan submission. At a minimum, the plan shall contain the following information:

1. x The title, "Subdivision Plan of (name of subdivision)";
2. x Date, scale and North arrow, Assessor's Map(s) and Lot(s) number(s) and a legend to explain any graphic representation or symbols on the plan;
3. x The names, addresses and telephone numbers of the owner(s) of record and applicant(s);
4. x The names of the designer, engineer and/or surveyor who prepared the plan;
5. x The names of all abutters, as determined from the most recent local tax list, including property owners on the opposite side of any street abutting the subdivision;
6. x Book and page deed references of the property to be subdivided;
7. x A note referring to which lots will be served by either Town Water Supply, private wells, municipal sewer or private septic systems and the location of the nearest existing public water and sewer utility services;
8. x A locus map at 1" = 2,000', exhibiting the boundaries of the proposed subdivision, location of proposed streets and relation to adjoining properties within a radius of one quarter mile and an aerial map exhibiting the general area surrounding the subject property (approximately ½ mile surrounding the site);
9. x The zoning district, including any overlay district of the land shown on the plan;
10. x The location of all wetlands protected under CMR 10.00 Wetlands

Protection. If protected wetlands are to be filled or altered, an approval from the Wareham Conservation Commission must accompany this definitive application;

11. x _____ Sufficient data to readily determine the location, direction and length of every street, way, easement, lot and boundary line and to establish those lines on the ground. The areas of all lots shall be shown and all lots shall be numbered. All bearings are to be referred to Massachusetts Prime Meridian if reference points are within a reasonable distance;
12. x _____ The location and present widths of streets bounding, approaching or within a reasonable proximity of the subdivision (500');
13. x _____ The location of all permanent monuments, properly identified as to whether existing or proposed; location of temporary stakes to enable the Planning Board to find and appraise features of the subdivision plan;
14. x _____ Proposed street names with approval of the Town's 911 system;
15. x _____ Any public or common areas within the subdivision;
16. x _____ The location of all abutting land owned by the applicant not presently being subdivided;
17. x _____ A suitable block to record the action and signatures of the Planning Board;
18. x _____ A suitable block for the Town Clerk's signature along with the statement "I hereby certify that 20 days have elapsed since the notice of approval from the Planning Board was received and recorded, and no notice of appeal has been filed in this office";
19. _____ A listing of all requested waivers from the literal requirements of these Rules and Regulations;
20. x _____ A contour plan showing existing and proposed topography at 2' intervals Related to an existing permanent benchmark;
21. x _____ Utility plan showing in plan and profile, but not limited to, the size and location of existing and proposed water and sewer lines, hydrants, electric lines, telephone lines, gas lines, fire alarm systems, cable television lines, storm drains and any easements pertinent thereto;
22. x _____ A drainage plan shall be prepared showing existing and proposed streets,

lots, 2' contours and other pertinent data; the drainage limits and acreage of the area tributary to each stormwater inlet and culvert; location and type of inlets proposed; location, size, length, invert elevations, slope of proposed drains and culverts; structural details of inlets, manholes, pipe, headwalls and all other drainage structures required to complete the plan; an estimate of the present rate and volume of run-off, as well as an estimate of the rate and volume of run-off that would occur after completion of the proposed subdivision, shall both be submitted along with supporting data. In calculating the run-off and drainage requirements, consideration shall be given to the impact of septic systems on the ability of the soil to absorb any additional stormwater, as well as any upgradient run-off which may impact the subdivision;

23. x Street plans and profiles at a horizontal scale of one inch equals forty feet (1" = 40') and a vertical scale as the Planning Board may approve. The following information shall be included:
- a. exterior lines of the right of way with sufficient data to determine their location, direction and length;
 - b. existing centerline profile to be shown as a fine continuous line. Existing centerline profile for intersecting streets to be shown for at least 10', each side of the intersection on street centerlines. Proposed right sideline shall be shown as a dashed black line, left sideline is black dots. Evaluations shall be based on USGS datum;
 - c. proposed centerline profile to be a heavy continuous line with elevations based on USGS datum shown every 50', every 25' on vertical curves;
 - d. road centerline stationing.
24. x A typical section showing proposed roadway construction at a scale of one inch equals ten feet (1" = 10') shall be provided with the profile plan (see typical section in appendix);
25. x Street lights and tree planting plan shall be provided for the area within the proposed street right of way. The plan shall be superimposed on the contour plan and shall show the following:
- a. existing trees to be preserved within the right of way;
 - b. any proposed street trees;
 - c. existing and proposed street lights.
26. x If the Planning Board determines that erosion due to development activity will be excessive or significant to wetlands, streams, ponds or other water bodies, the developer shall submit a soil erosion and sediment control plan. This plan shall consist of a drawing certified by a

registered civil engineer, identifying the appropriate control measures and their locations;

27. N/A If necessary, to determine compliance with these rules and regulations, the Board may require further engineering or environmental analysis to be prepared at the expense of the applicant, employing professionals approved by the Board.

This application constitutes the applicant's willingness to work under the Town of Wareham's Subdivision Rules and Regulations. Any errors or omissions from this checklist of the Subdivision Regulations may result in the application not being placed on a Planning Board agenda or a denial of this Definitive Plan.

RE: 4 & 6 Shell Lane Definitive Subdivision List of Waivers

Dear Kenneth and Board Members,

Please find below a list of requested waivers from the Town of Wareham Rules and Regulations. On behalf of the Applicant the following waivers are being requested:

- Section V - Design Standards, Subsection C(2)(e) Location and Alignment: The Applicant is requesting a waiver to the required minimum 60 degree alignment with other streets. There are no proposed changes to the existing road alignments. Lydias Island Road and Shell Lane currently intersect at less than 60 degrees.
- Section V - Design Standards, Subsection C(3)(a) Street Width: The Applicant is requesting a waiver to the required minimum 40 feet of width for the Residential Minor Street. The existing road layout for the area the proposed lots front on is currently 30 feet wide and adequate to accommodate the necessary gravel way and utilities.
- Section VI – Required Improvements, Subsection C (1) Street Width: The Applicant is requesting a waiver from the required minimum 18 feet of width for the Residential Minor Street. The existing road is a gravel way of variable width. The Applicant proposes to widen the gravel way to 12 feet wide with cleared shoulders, which will match Lydias Island Road, being the road leading to Shell Lane.
- Section VI – Required Improvements, Subsection F Street Trees: The Applicant is requesting a waiver from the requirement to plant street trees. The existing road and heavily treed. Most of the trees are proposed to be preserved.
- Section VI – Required Improvements, Subsection G Sidewalks: The Applicant is requesting a waiver from the requirement for adding sidewalks. The existing roads leading to the side currently have no sidewalks.
- Section VI – Required Improvements, Subsection G Sidewalks: The Applicant is requesting a waiver from the requirement for adding sidewalks. The existing roads leading to the side currently have no sidewalks.
- Section VI – Required Improvements, Subsection H Curbs: The Applicant is requesting a waiver from the requirement for adding curbs. The proposed gravel road is not suitable for the addition of curbing.

Thank you for your consideration and please let me know if you have any questions or need any additional information.

Sincerely,
