Reference: Squirrel Island Road, private pole transfer to Eversource

We the residence on Squirrel Island Road wish to have the situation of private pole ownership be resolved by having Eversource take control/ownership of the designated private poles. Because the poles are privately owned Eversource has refused to service any damage to the lines or poles due to inclimate weather etc... We have been informed by Eversource that since they do not have ownership this responsibility falls to the residence on Squirrel Island Road. When purchasing our homes on Squirrel Island Road we were never informed, nor was it disclosed, that this was the case. We the undersigned ask for the Planning Boards assistance to not allow any new building permits for new construction by J C Engineering, or anyother construction company, to go forward on Squirrel Island Road until this issue with the poles is resolved.

Respectfully

Eric & Cheryl Antato
