Wareham Planning Board,

In reference to the Subdivision Plan- RESI, LLC- 36, 42, 48 Robinwood Road for a Seven Lot Subdivision. I find it hard to believe that this project can move forward as I was informed it's in a velocity zone. I had a piece of land under agreement near these lots and hired GAF to do a perk test, Mr. Madden told me it was a waste of my time because I could not put a sewer tank in a velocity zone. I do not believe there is town sewer in that area as of yet.

Sincerely,

William P Bachant
