Dear Mr. Buckland,

We have reviewed the proposed site plan for 2400 & 2402 Cranberry Highway and have the following comments:

1. Please provide the fire hydrant locations on the site plan. I believe they are located in the existing conditions but will need to have the hydrants identified on the plan.
2. Please provided the proposed location for the Fire Department Connection on the plan for our review.
3. Please provide a swept path analysis for our Tower 1. This analysis shall show all turning movements for the apparatus.

If you have any further questions regarding this matter, please feel free to contact our office.

Respectfully,

Captain Christopher Smith
